

CATALOGUE07

OFFICE PRODUCT

SELECT A PRODUCT OR CUSTOMIZE ONE.

AGVA offers a wide selection of over 1,000 products. The company's in-house design team is also able to create customized designs to meet various functional and aesthetic requirements.

ESTABLISHED TRACK RECORD AND WELL RECOGNIZED BRAND.

AGVA's has received continuous support from market leaders for its strong track record in product development and production capabilities. This has led to AGVA being a well-recognized trusted name globally.

AGVA's product are now sold in over 40 countries around the world.

INDUSTRY EXPERTS, BETTER CUSTOMER UNDERSTANDING.

Every stage of AGVA's production process is staffed with experienced and professional people to ensure that customers' needs are met optimally and efficiently. Led by an experienced and qualified management team, AGVA's thorough understanding of its customers and the industry enables it to keep abreast of market trends and stay ahead of competition.

AGVA's industry experience and large production capabilities allows for unmatched competitive advantages.

QUALITY PRODUCTS, REASONABLE PRICES.

AGVA is able to keep production costs low by manufacturing and recycling key raw materials in its own facility in China. By producing the raw materials in-house, AGVA ensures consistent product quality, short turnaround time and lower production costs – thereby adding greater value to its customers.

INTEGRATED SUPPLY CHAIN NETWORK, FASTER DELIVERY.

An integrated supply chain management system enhances the co-ordination between the various operations—from customer service, product development and manufacturing, to packaging and delivery. The result is a one-stop manufacturing service and a shorter production turnaround time.

STRICT QUALITY CONTROL, RELIABLE PRODUCTS.

AGVA's manufacturing operations adopt a Total Quality Management System in accordance with ISO9001 requirements. The system is implemented across all stages of the production process, from product design to fulfillment.

EXTENSIVE PRODUCTION CAPABILITY.

At the heart of AGVA's manufacturing capability is its 320,000 square feet factory in Dongguan, China. The manufacturing operations are well-equipped and capable of producing more than one million units per month.

Fully integrated backwards to manufacture polypropylene films and boards, as well as plastic injection moulded parts which are necessary for use in manufacturing its media storage products, AGVA is able to maintain absolute control over its manufacturing costs, production time and product quality.

To ensure consistent and high quality standards, strict quality control procedures are instilled throughout the manufacturing process in accordance to world recognized ISO standards.

AGVA's full suite of manufacturing solutions, coupled with its experience and expertise, have helped its customers deliver prompt, efficient and quality service and products to their customers.

AGVA offers the convenience of end-to-end manufacturing solutions, complete with an integrated supply chain management system.

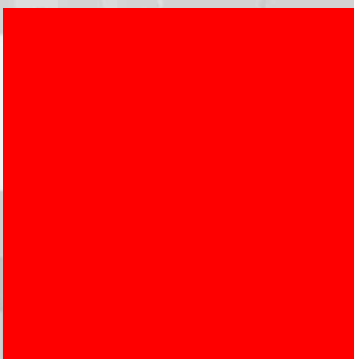

COMPLETE ONE-STOP SOLUTION.

AGVA's information technology infrastructure is able to support the full integration of its supply chain management system by providing services ranging from design, product development, materials' sourcing and manufacturing, to packaging, labeling, price-tagging and delivery services.

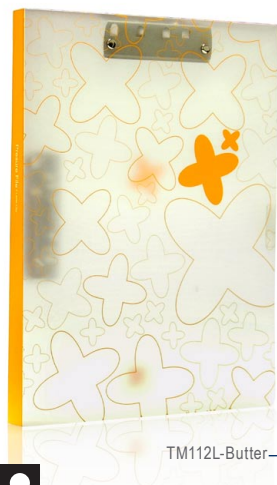

STRONG CAPABILITY, PRODUCT DEVELOPMENT

AGVA's professional team of experts provides a one-stop product design, development and manufacturing service. Its product development team is capable of

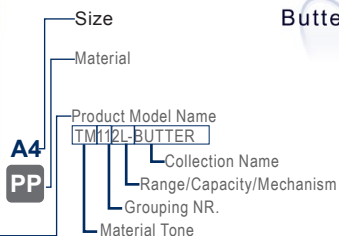

producing a wide range of products and designs, according to the needs of each customer. Its products include audio/video, consumer electronics and telecommunications storage products, stationery, haversacks and outdoor bags.
